**Age: 38**  
**Course: MBA**  
**University of Wales**

"I live in Stoke-on-Trent (Staffordshire) with my two children and Wife. I always wanted to do an MBA but could never seem to find the time until I found out about the RDI course MBA Business with the University of Wales.

I am a serving Police Officer on a study break to complete this study programme. I am also attached to a group of companies to learn Senior Management as an Operations director giving me an opportunity for implementing processes which I am learning from within this course.

I would rate RDI as a focused company who gives its customers great service and support, they have really helped me over the past five months. The support facility has always answered any issues I have within each module.

I have never done distance learning before, this is the best option for me to be able to study in my own time so I can still spend time with my family which is really important to me. This course allows this to happen as well as myself developing in each module.

I would recommend RDI to anyone who wants to see an instant development with support from an organisation that has the experience in the chosen course, but also has a genuine care for customer service."
